DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shuzo (63-905665) in view of Tajima (11-280624).

Shuzo substantially disclose the claim invention in fig.1-2. However, Suzo does not disclose the rear end surface of the pinion press onto the step of the pinion shaft.

Tajima disclose a starter motor in fig.1 comprising: a pinion, a C-clip, a pinion shaft having a sleeve (25) and a step portion (25a) for the purpose of preventing the pinion from moving in an axial forward direction and an axially backwards direction relative to the pinion shaft. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the starter of Shuzo with the pinion and shaft of Tajima for the purpose of preventing axial movement of the pinion.

Response to Arguments

3. Applicant's arguments with respect to claim1-14 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
